

Margarita Estrada

Professional Speaker | Presenter | Author

How often have you seen a speaker who can keep an audience from the beginning to the end, and never let them go? Was it the speaker's personality, ability to connect, to touch the minds and hearts of the audience that you made you say, "I want to be that speaker?"

Margarita Estrada is a former panic attack sufferer turned inspirational speaker, workshop leader and presenter who teaches you how to summon the power within so that you can speak with confidence!

Known as The Well-Connected Writer, she authored and published the book, *Vignettes of a Family Journey* in 2018, a bi-lingual memoir that brings awareness to those who are **not** familiar with Alzheimer's and dementia, and its effects on the family. In addition, her articles have been featured in local magazines and on social media.

Her mantra is:

Build your arsenal!

Break the barriers!

Step up and dare to be the challenger, the initiator, and the change agent that you were meant to be!

Please welcome, Margarita Estrada!
